Forecast for Monday 13 Mar 2023

Weather: Cloudy with heavy rain pushing northwards during the early hours. This rain then turning to sleet and snow as cold air pushes down from the north. The front then starts to move back southwards through the rest of the day. Some clearer conditions in the north as we head into the evening and mostly clearing the area by late evening. Scattered light snow showers following behind.

Chance of cloud-free hill tops above 800m: 10% improving to 60-70% through the evening.

Low Cloud and visibility: Widespread low cloud, bases 500-700 m, and poor visibility in association with the front, potential for whiteout conditions. Much clearer airmass behind with good visibility.
